### **DETAILED ACTION**

1. Applicant's election with traverse of XIII, claims 36-45, BzATP, major depression in the reply filed on October 20, 2008 is acknowledged. The traversal is on the ground(s) that the search and examination of the claims of Groups I-XVIII do not present an undue burden to the examiner. This is not found persuasive because the groups are classified separately.

The requirement is still deemed proper and is therefore made FINAL.

2. Preliminary amendment filed October 14, 2005 has been entered.

3. Claims 36-38 and 40-43 are examined below. Claims 1-22, 24-30, 32-34, 39, and 44-56 are withdrawn. Claims 23, 31, 35, are cancelled.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Art Unit: 1646

4. Claims 36-38 and 40-43 are rejected under 35 U.S.C. 102(e) as being anticipated by Franco et al. (US 2004/0229262).

Franco et al. teach a method of administering agonist for treatment of affective disorders (paragraph 123, 125-127, 639 and 677) and teach that BzATP is an agonist. Franco et al. teach depression and treatment of depression (paragraph 125-127, 135 and 639). The beta-adrenergic receptor modulator is optional. BzATP inherently modulates P2X7R activity.

5. No claim is allowed.
